

5S Workplace Organization Masterclass Training Course

Professional Development Training Course Outline

Category	Quality Assurance and ISO standards	Duration	10 Days
Base Fee	\$3,000 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

5S Workplace Organization Masterclass Training Course is designed to equip participants with advanced knowledge and practical skills for implementing workplace organization strategies using the globally recognized 5S methodology. This course provides a comprehensive understanding of how 5S principles – Sort, Set in Order, Shine, Standardize, and Sustain – can be applied to drive operational excellence, boost employee productivity, and improve workplace safety. Through hands-on learning, interactive modules, and case studies, participants will learn how to transform organizational spaces into efficient, lean, and optimized environments that foster continuous improvement.

In today's competitive business landscape, companies must embrace lean management strategies to remain sustainable and profitable. The 5S system is a proven framework that reduces waste, enhances quality, and improves workflow. This masterclass will help participants gain in-depth knowledge of organizational culture transformation, lean workplace optimization, process efficiency, and operational sustainability. By mastering the 5S methodology, participants will become key contributors in driving long-term organizational success, industry competitiveness, and customer satisfaction.

Programme Curriculum

5S Workplace Organization Masterclass Training Course

Introduction

5S Workplace Organization Masterclass Training Course is designed to equip participants with advanced knowledge and practical skills for implementing workplace organization strategies using the globally recognized 5S methodology. This course provides a comprehensive understanding of how 5S principles – Sort, Set in Order, Shine, Standardize, and Sustain – can be applied to drive operational excellence, boost employee

productivity, and improve workplace safety. Through hands-on learning, interactive modules, and case studies, participants will learn how to transform organizational spaces into efficient, lean, and optimized environments that foster continuous improvement.

In today's competitive business landscape, companies must embrace lean management strategies to remain sustainable and profitable. The 5S system is a proven framework that reduces waste, enhances quality, and improves workflow. This masterclass will help participants gain in-depth knowledge of organizational culture transformation, lean workplace optimization, process efficiency, and operational sustainability. By mastering the 5S methodology, participants will become key contributors in driving long-term organizational success, industry competitiveness, and customer satisfaction.

Course Objectives

1. To understand the fundamentals of the 5S methodology and workplace organization.
2. To apply lean management practices for enhancing operational efficiency.
3. To identify workplace waste and implement effective waste reduction strategies.
4. To create visually organized and safe workplace environments.
5. To improve employee productivity through workflow standardization.
6. To establish effective workplace audit and assessment frameworks.
7. To implement digital tools for sustaining 5S initiatives.
8. To drive cultural transformation through continuous improvement practices.
9. To develop leadership skills in promoting 5S workplace initiatives.
10. To align 5S practices with organizational strategic goals.
11. To analyze and apply global case studies of successful 5S implementation.
12. To improve workplace ergonomics and safety through 5S.
13. To sustain 5S as a long-term organizational culture.

Organizational Benefits

1. Enhanced operational efficiency across departments.
2. Reduction of waste, defects, and downtime.
3. Improved workplace safety and ergonomics.
4. Higher employee morale and engagement.
5. Strengthened company reputation for operational excellence.
6. Consistent delivery of quality products and services.
7. Streamlined workflows and reduced lead times.
8. Increased organizational competitiveness in the market.
9. Greater alignment between strategic goals and daily operations.
10. Long-term sustainability and cost savings.

Target Audiences

1. Operations managers
2. Lean management practitioners
3. Quality control professionals
4. Production supervisors
5. Health and safety officers
6. Human resource professionals
7. Continuous improvement leaders
8. Business consultants

Course Duration: 10 days

Course Modules

Module 1: Introduction to 5S Workplace Organization

- History and evolution of the 5S methodology
- Importance of workplace organization in lean management
- Linking 5S to productivity and quality improvement
- Core principles of 5S implementation
- Benefits of adopting workplace organization practices
- Case study: Global overview of 5S success stories

Module 2: Sort (Seiri) ?Çô Eliminating Waste and Clutter

- Identifying unnecessary items in the workplace
- Strategies for effective workplace decluttering
- Using red-tagging techniques for elimination
- Safety and efficiency through removal of hazards
- Tools for prioritizing essential workplace items
- Case study: Manufacturing floor decluttering results

Module 3: Set in Order (Seiton) ?Çô Streamlining the Workplace

- Defining logical workplace layouts
- Organizing tools and equipment for efficiency
- Implementing visual workplace systems
- Labeling and color-coding best practices
- Enhancing workflow through spatial arrangement
- Case study: Improved productivity through re-organization

Module 4: Shine (Seiso) ?Çô Workplace Cleaning and Inspection

- Importance of cleanliness in workplace safety
- Cleaning as an inspection tool for problem identification
- Scheduling and documenting cleaning activities
- Ownership and accountability in workplace cleanliness
- Tools and methods for effective workplace maintenance
- Case study: Reduced machine downtime through Seiso

Module 5: Standardize (Seiketsu) ?Çô Maintaining Order

- Developing workplace standards for consistency
- Visual standardization practices for workflows
- Role of standard operating procedures in 5S
- Incorporating digital tools for standardization
- Training employees to maintain workplace standards
- Case study: Improved audit compliance through Seiketsu

Module 6: Sustain (Shitsuke) ?Çô Embedding the Culture

- Building discipline for sustaining 5S practices

- Creating accountability systems within teams
- Engaging leadership in 5S sustainability
- Role of recognition and rewards in sustaining change
- Continuous improvement as part of daily operations
- Case study: Cultural transformation through 5S

Module 7: Workplace Safety and Ergonomics through 5S

- Linking 5S practices to occupational safety
- Ergonomic workplace design principles
- Hazard identification and risk prevention strategies
- Creating safer workflows with 5S tools
- Building employee awareness on safety practices
- Case study: Workplace injury reduction through 5S

Module 8: Visual Management Tools in 5S Implementation

- Introduction to visual workplace management systems
- Importance of visual cues in reducing errors
- Standardized signage, markings, and displays
- Digital dashboards for real-time workplace monitoring
- Visual communication for employee engagement
- Case study: Improved quality through visual management

Module 9: Waste Reduction Strategies with 5S

- Identifying the seven types of waste in operations
- Role of 5S in reducing workplace inefficiencies
- Streamlining workflows to eliminate non-value activities
- Aligning lean practices with environmental sustainability
- Integrating waste reduction with organizational goals
- Case study: Cost savings through 5S waste reduction

Module 10: Digital Tools for Sustaining 5S

- Software applications for workplace audits
- Cloud-based systems for workflow documentation
- Using mobile apps for real-time workplace monitoring
- Digital training platforms for employee engagement
- Technology integration for sustaining workplace culture
- Case study: Digital transformation through 5S tools

Module 11: Leadership and Change Management in 5S

- Role of leaders in promoting 5S practices
- Effective change management strategies
- Communication methods for engaging employees
- Overcoming resistance to organizational change
- Building long-term leadership commitment to 5S
- Case study: Leadership-driven 5S cultural adoption

Module 12: Employee Engagement in 5S Implementation

- Importance of workforce involvement in 5S
- Employee empowerment for workplace improvements
- Training and development strategies for engagement
- Building ownership through team participation
- Role of incentives in sustaining employee involvement
- Case study: Workforce-led 5S improvements

Module 13: Measuring and Auditing 5S Effectiveness

- Key performance indicators for 5S success
- Audit frameworks for workplace assessment
- Continuous monitoring and reporting techniques
- Benchmarking against global best practices
- Using data to drive improvement strategies
- Case study: Improved compliance through 5S audits

Module 14: Global Case Studies of 5S Success

- Overview of 5S applications in manufacturing
- Service sector applications of 5S methodology
- Healthcare workplace transformation with 5S
- Supply chain optimization through 5S principles
- Lessons learned from global 5S practices
- Case study: Industry-specific 5S transformation

Module 15: Sustaining Continuous Improvement Beyond 5S

- Linking 5S to broader lean methodologies
- Integration of 5S into organizational strategy
- Building innovation into continuous improvement cycles
- Long-term employee training and capacity building
- Aligning 5S outcomes with customer satisfaction
- Case study: Organizational growth through continuous improvement

Training Methodology

- Interactive lectures and facilitated discussions
- Group exercises and role-playing activities
- Real-life industry case study analysis
- Visual demonstrations and workplace simulations
- Practical hands-on assignments and project work
- Continuous feedback and performance evaluation

Certification

Upon successful completion of this training, participants will be issued with a globally- recognized certificate.

Tailor-Made Course

We also offer tailor-made courses based on your needs.

Key Notes

- a.** The participant must be conversant with English.
- b.** Upon completion of training the participant will be issued with an Authorized Training Certificate
- c.** Course duration is flexible and the contents can be modified to fit any number of days.
- d.** The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.
- e.** One-year post-training support Consultation and Coaching provided after the course.
- f.** Payment should be done at least a week before commence of the training, to Fineskill Training Center account, as indicated in the invoice so as to enable us prepare better for you.

Upcoming Scheduled Sessions

Start Date	End Date	Location	Price
21 Sep 2026	02 Oct 2026	Online	\$2,000
21 Sep 2026	02 Oct 2026	Physical	\$3,000
21 Sep 2026	02 Oct 2026	Physical	\$0
21 Sep 2026	02 Oct 2026	Physical	\$0
21 Sep 2026	02 Oct 2026	Physical	\$0
21 Sep 2026	02 Oct 2026	Physical	\$0
21 Sep 2026	02 Oct 2026	Physical	\$0
