

Burnout Prevention in Support Teams Training Course

Professional Development Training Course Outline

Category	Customer Service and Customer Experience	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

In today’s fast-paced, high-pressure work environment, support teams face unprecedented stressors that can lead to chronic burnout, decreased productivity, and high turnover rates. Organizations must proactively equip their teams with the tools, strategies, and resilience techniques to maintain mental health, engagement, and performance. Burnout Prevention in Support Teams Training Course leverages evidence-based approaches, practical interventions, and interactive learning methods to empower support staff to thrive under pressure while sustaining peak performance.

The course focuses on stress management, emotional intelligence, resilience building, and sustainable workload strategies. By integrating real-world case studies and actionable techniques, participants will learn to recognize early warning signs of burnout, implement self-care protocols, and foster a supportive team culture. This program is essential for any organization seeking to optimize employee well-being, reduce attrition, and enhance overall team effectiveness in high-demand support roles.
