

Customer Lifetime Value (CLV) Analytics for Banks Training Course

Professional Development Training Course Outline

Category	Banking Institute	Duration	10 Days
Base Fee	\$3,000 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

In today’s hyper-competitive and data-driven banking ecosystem, Customer Lifetime Value (CLV) Analytics has emerged as a critical strategic capability for driving customer-centric growth, profitability optimization, and digital transformation. Banks are increasingly leveraging advanced analytics, AI-powered customer insights, predictive modeling, and big data platforms to understand customer behavior across the entire lifecycle. Customer Lifetime Value (CLV) Analytics for Banks Training Course equips banking professionals with the knowledge and tools required to design, implement, and scale CLV-driven strategies, enabling institutions to enhance customer retention, cross-selling, personalization, and long-term value creation.

With the rapid evolution of open banking, fintech disruption, omnichannel engagement, and real-time data analytics, traditional metrics are no longer sufficient. This training provides a comprehensive framework for integrating machine learning algorithms, behavioral segmentation, customer journey analytics, and profitability modeling into CLV strategies. Participants will gain hands-on exposure to banking use cases, case studies, and practical applications, ensuring they can transform raw data into actionable insights that drive sustainable revenue growth and competitive advantage.

Programme Curriculum

Customer Lifetime Value (CLV) Analytics for Banks Training Course

Introduction

In today’s hyper-competitive and data-driven banking ecosystem, Customer Lifetime Value (CLV) Analytics has emerged as a critical strategic capability for driving customer-centric growth, profitability optimization, and digital transformation. Banks are increasingly leveraging advanced analytics, AI-powered customer insights, predictive modeling, and big data platforms to understand customer behavior across the entire lifecycle. Customer Lifetime Value (CLV) Analytics for Banks Training Course equips banking professionals with the knowledge and

tools required to design, implement, and scale CLV-driven strategies, enabling institutions to enhance customer retention, cross-selling, personalization, and long-term value creation.

With the rapid evolution of open banking, fintech disruption, omnichannel engagement, and real-time data analytics, traditional metrics are no longer sufficient. This training provides a comprehensive framework for integrating machine learning algorithms, behavioral segmentation, customer journey analytics, and profitability modeling into CLV strategies. Participants will gain hands-on exposure to banking use cases, case studies, and practical applications, ensuring they can transform raw data into actionable insights that drive sustainable revenue growth and competitive advantage.

Course Duration

10 days

Course Objectives

1. Develop expertise in Customer Lifetime Value modeling and predictive analytics
2. Understand AI-driven customer segmentation and behavioral analytics
3. Apply data-driven decision-making frameworks in banking analytics
4. Master customer profitability analysis and revenue optimization strategies
5. Implement machine learning models for CLV forecasting
6. Enhance customer retention strategies using predictive insights
7. Leverage big data analytics for personalized banking experiences
8. Integrate customer journey mapping with CLV optimization
9. Utilize advanced data visualization tools for actionable insights
10. Strengthen cross-selling and upselling strategies using analytics
11. Design real-time analytics dashboards for customer intelligence
12. Align CLV strategies with digital banking transformation goals
13. Evaluate risk-adjusted customer value and portfolio optimization

Target Audience

1. Banking and Financial Services Professionals
2. Data Analysts and Data Scientists
3. Customer Experience and CRM Managers
4. Digital Banking and Transformation Leaders
5. Risk and Credit Analysts
6. Marketing and Product Managers
7. Business Intelligence Professionals
8. Fintech and Innovation Teams

Course Modules

Module 1: Introduction to CLV in Banking

- Fundamentals of Customer Lifetime Value
- Importance of CLV in modern banking
- Key CLV metrics and KPIs
- CLV vs traditional performance metrics
- *Case Study:* Retail bank improving retention using CLV insights

Module 2: Data Foundations for CLV Analytics

- Data sources in banking ecosystems
- Data integration and data quality management
- Customer data platforms (CDPs)
- Data governance and compliance
- *Case Study*: Data consolidation for unified customer view

Module 3: Customer Segmentation Strategies

- Behavioral and demographic segmentation
- RFM (Recency, Frequency, Monetary) analysis
- AI-based segmentation models
- Micro-segmentation techniques
- *Case Study*: Segment-based marketing campaign success

Module 4: CLV Modeling Techniques

- Historical vs predictive CLV models
- Probabilistic models and cohort analysis
- Machine learning approaches
- Model validation and accuracy
- *Case Study*: Predictive CLV improving profitability

Module 5: Customer Journey Analytics

- Mapping customer journeys across channels
- Touchpoint analysis and attribution modeling
- Omnichannel engagement strategies
- Journey optimization techniques
- *Case Study*: Digital onboarding journey optimization

Module 6: Customer Profitability Analysis

- Revenue and cost allocation methods
- Activity-based costing in banking
- Profitability segmentation
- Lifetime profitability metrics
- *Case Study*: Identifying high-value customers

Module 7: Predictive Analytics for Retention

- Churn prediction models
- Early warning indicators
- Retention strategy design
- Personalization using predictive insights
- *Case Study*: Reducing churn in retail banking

Module 8: Cross-Selling and Upselling Analytics

- Product recommendation engines
- Next-best-offer strategies
- Customer propensity modeling
- Campaign effectiveness measurement

- *Case Study:* Increasing product penetration

Module 9: Personalization and Customer Experience

- AI-driven personalization strategies
- Real-time decision engines
- Customer experience optimization
- Behavioral targeting
- *Case Study:* Personalized digital banking experiences

Module 10: Big Data and Technology Enablers

- Big data platforms and architectures
- Cloud computing in banking analytics
- Data lakes and real-time analytics
- Integration with core banking systems
- *Case Study:* Cloud-based analytics transformation

Module 11: Data Visualization and Reporting

- Dashboard design principles
- KPI tracking and reporting
- Visualization tools (Power BI, Tableau)
- Storytelling with data
- *Case Study:* Executive dashboards for CLV insights

Module 12: Risk-Adjusted CLV

- Integrating credit risk into CLV
- Risk-return optimization
- Portfolio-level analysis
- Regulatory considerations
- *Case Study:* Risk-based customer valuation

Module 13: AI and Machine Learning in CLV

- Supervised and unsupervised learning
- Model deployment in banking
- Automation of analytics processes
- Ethical AI considerations
- *Case Study:* AI-driven CLV predictions

Module 14: Implementation Framework and Strategy

- CLV strategy roadmap
- Change management in banks
- Organizational alignment
- Performance measurement frameworks
- *Case Study:* End-to-end CLV implementation

Module 15: Future Trends in CLV Analytics

- Open banking and API ecosystems

- Fintech collaboration models
- Real-time analytics evolution
- Hyper-personalization trends
- *Case Study:* Future-ready digital bank strategy

Training Methodology

- Interactive lectures and presentations.
- Group discussions and brainstorming sessions.
- Hands-on exercises using real-world datasets.
- Role-playing and scenario-based simulations.
- Analysis of case studies to bridge theory and practice.
- Peer-to-peer learning and networking.
- Expert-led Q&A sessions.
- Continuous feedback and personalized guidance.

Register as a group from 3 participants for a Discount

Certification

Upon successful completion of this training, participants will be issued with a globally- recognized certificate.

Tailor-Made Course

We also offer tailor-made courses based on your needs.

Key Notes

- a. The participant must be conversant with English.
- b. Upon completion of training the participant will be issued with an Authorized Training Certificate
- c. Course duration is flexible and the contents can be modified to fit any number of days.
- d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.
- e. One-year post-training support Consultation and Coaching provided after the course.
- f. Payment should be done at least a week before commence of the training, to Fineskill Training Center account, as indicated in the invoice so as to enable us prepare better for you.

Upcoming Scheduled Sessions

Start Date	End Date	Location	Price
21 Sep 2026	02 Oct 2026	Online	\$2,000

Start Date	End Date	Location	Price
21 Sep 2026	02 Oct 2026	Physical	\$3,000
21 Sep 2026	02 Oct 2026	Physical	\$0
21 Sep 2026	02 Oct 2026	Physical	\$0
21 Sep 2026	02 Oct 2026	Physical	\$0
21 Sep 2026	02 Oct 2026	Physical	\$0
21 Sep 2026	02 Oct 2026	Physical	\$0
