

Digital Economy & E-Commerce Taxation Training Course

Professional Development Training Course Outline

Category	Taxation and Revenue	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

The rapid expansion of the digital economy and e-commerce has transformed how businesses operate, trade, and create value across borders. Digital Economy & E-Commerce Taxation – Training Course provides an in-depth understanding of the taxation challenges and opportunities arising from digital transactions, online marketplaces, and cross-border digital services.

Participants will explore the evolving global tax frameworks that address the taxation of the digital economy, including OECD guidelines, digital service taxes (DSTs), and VAT/GST rules for e-commerce platforms. The training emphasizes compliance, reporting, and strategic tax planning for digital businesses.

Moreover, learners will examine practical applications of technology-driven taxation, emerging international reforms under BEPS 2.0, and how governments adapt to new business models such as fintech, cloud services, and digital content streaming. By the end, participants will be equipped to navigate the complex digital tax landscape with confidence and strategic insight.

Digital Economy & E-Commerce Taxation Training Course

Introduction

The rapid expansion of the digital economy and e-commerce has transformed how businesses operate, trade, and create value across borders. Digital Economy & E-Commerce Taxation – Training Course provides an in-depth understanding of the taxation challenges and opportunities arising from digital transactions, online marketplaces, and cross-border digital services.

Participants will explore the evolving global tax frameworks that address the taxation of the digital economy, including OECD guidelines, digital service taxes (DSTs), and VAT/GST rules for e-commerce platforms. The

training emphasizes compliance, reporting, and strategic tax planning for digital businesses.

Moreover, learners will examine practical applications of technology-driven taxation, emerging international reforms under BEPS 2.0, and how governments adapt to new business models such as fintech, cloud services, and digital content streaming. By the end, participants will be equipped to navigate the complex digital tax landscape with confidence and strategic insight.

Course Objectives

By the end of this course, participants will be able to:

1. Understand the fundamentals of taxation in the digital economy.
2. Identify the key challenges of taxing digital and online transactions.
3. Interpret global tax initiatives such as BEPS and OECD Pillar One & Two frameworks.
4. Apply VAT/GST principles to cross-border digital services and e-commerce.
5. Assess the impact of digital services taxes (DSTs) on multinational enterprises.
6. Manage compliance and reporting obligations for online platforms.
7. Understand the taxation of digital goods, services, and intellectual property.
8. Address issues of tax nexus and permanent establishment in the digital space.
9. Implement e-invoicing and digital record-keeping systems.
10. Mitigate risks of double taxation and non-taxation in cross-border e-commerce.
11. Explore emerging technologies for tax administration (AI, blockchain, data analytics).
12. Evaluate tax policy reforms promoting fairness and efficiency in digital markets.
13. Develop digital tax strategies aligned with global compliance standards.

Target Audience

- Tax Consultants and Advisors
- Finance and Accounting Professionals
- E-Commerce Entrepreneurs and Platform Owners
- Legal and Compliance Officers
- Government Tax Administrators and Policy Makers
- Auditors and Revenue Officers
- Digital Service Providers and Start-up Founders
- International Business Executives and Economists

Course Duration: 5 days

Course Modules
