

# Digital Workplace Tools for Public Servants Training Course

## Professional Development Training Course Outline

|          |                          |               |                         |
|----------|--------------------------|---------------|-------------------------|
| Category | Public Sector Innovation | Duration      | 10 Days                 |
| Base Fee | \$3,000 USD              | Delivery Mode | Online / On-site Hybrid |

## Course Introduction

The modern public service environment demands high proficiency in digital workplace tools to increase efficiency, collaboration, and service delivery. Digital transformation initiatives across government institutions rely on employees' ability to leverage collaborative platforms, productivity software, cloud applications, and communication tools effectively. Digital Workplace Tools for Public Servants Training Course provides participants with practical skills to optimize digital workflows, manage information securely, and enhance team coordination while maintaining compliance with government policies and cybersecurity standards. Public servants will gain hands-on experience in using digital tools to streamline daily tasks, enable remote work, and improve citizen engagement.

With rapid technological advancements, public sector employees face challenges such as information overload, dispersed teams, and evolving digital platforms. This course equips participants with strategies to integrate digital tools into operational processes, automate routine tasks, and promote a culture of innovation. Emphasis is placed on adopting collaborative platforms, document management systems, project tracking tools, and communication technologies to enhance productivity, accountability, and responsiveness. By the end of the training, participants will be prepared to lead digital initiatives, optimize their workflows, and contribute to a digitally empowered public sector.

## Programme Curriculum

### Digital Workplace Tools for Public Servants Training Course

#### Introduction

The modern public service environment demands high proficiency in digital workplace tools to increase efficiency, collaboration, and service delivery. Digital transformation initiatives across government institutions

rely on employees' ability to leverage collaborative platforms, productivity software, cloud applications, and communication tools effectively. Digital Workplace Tools for Public Servants Training Course provides participants with practical skills to optimize digital workflows, manage information securely, and enhance team coordination while maintaining compliance with government policies and cybersecurity standards. Public servants will gain hands-on experience in using digital tools to streamline daily tasks, enable remote work, and improve citizen engagement.

With rapid technological advancements, public sector employees face challenges such as information overload, dispersed teams, and evolving digital platforms. This course equips participants with strategies to integrate digital tools into operational processes, automate routine tasks, and promote a culture of innovation. Emphasis is placed on adopting collaborative platforms, document management systems, project tracking tools, and communication technologies to enhance productivity, accountability, and responsiveness. By the end of the training, participants will be prepared to lead digital initiatives, optimize their workflows, and contribute to a digitally empowered public sector.

### **Course Objectives**

1. Understand the role of digital workplace tools in enhancing public service productivity.
2. Apply cloud-based collaboration platforms for remote and hybrid work environments.
3. Use productivity and office automation software efficiently in daily operations.
4. Leverage communication and project management tools to improve teamwork.
5. Implement secure document management and information-sharing practices.
6. Adopt workflow automation and process optimization techniques.
7. Monitor and analyze digital performance metrics for better decision-making.
8. Integrate digital tools for citizen engagement and service delivery.
9. Enhance cybersecurity awareness and compliance in public sector workflows.
10. Apply digital strategies to reduce operational inefficiencies and redundancy.
11. Foster innovation and knowledge sharing through collaborative platforms.
12. Evaluate emerging technologies for applicability in government operations.
13. Develop an action plan for transforming public sector workspaces digitally.

### **Organizational Benefits**

- Improved productivity and operational efficiency across departments
- Enhanced collaboration and communication among teams
- Reduced manual processes through automation
- Secure and compliant data management and sharing
- Improved citizen engagement and service delivery
- Standardized digital processes and workflows
- Increased employee digital literacy and innovation
- Strengthened performance monitoring and accountability
- Optimized remote and hybrid working capabilities
- Better alignment with government digital transformation strategies

### **Target Audiences**

- Public sector managers and department heads
- Administrative officers and clerical staff
- IT and systems support staff in government
- Project managers and coordinators
- Policy makers and regulatory personnel
- Human resources and training officers
- Citizen service officers
- Digital transformation officers

**Course Duration:** 10 days

## **Course Modules**

### **Module 1: Introduction to Digital Workplaces**

- Overview of digital workplace concepts and strategies
- Benefits of digital transformation in public service
- Key components of a digital workplace ecosystem
- Understanding hybrid and remote working models
- Technology adoption challenges in the public sector
- Case Study: Implementing a digital workplace in a government department

### **Module 2: Cloud Collaboration Tools**

- Introduction to cloud-based platforms (Office 365, Google Workspace)
- Real-time document sharing and co-authoring
- Version control and file synchronization best practices
- Collaboration with internal and external stakeholders
- Integration with existing IT systems and workflows
- Case Study: Cloud adoption improving inter-departmental coordination

### **Module 3: Productivity Software and Automation**

- Advanced features in office productivity suites
- Automating routine tasks with macros and scripts
- Templates and workflow optimization
- Managing digital calendars and task lists efficiently
- Collaborative document editing and tracking
- Case Study: Reducing manual report generation using automation

### **Module 4: Communication and Messaging Tools**

- Effective use of instant messaging, video conferencing, and email

- Maintaining communication standards and etiquettes
- Leveraging communication tools for cross-team collaboration
- Integrating messaging platforms with project management systems
- Monitoring and analytics for team communication effectiveness
- Case Study: Improving virtual meeting productivity with structured communication

## **Module 5: Project Management Tools**

- Introduction to digital project management platforms (Trello, Asana, MS Project)
- Task assignment, scheduling, and progress tracking
- Collaboration and file sharing within projects
- Reporting dashboards and milestone monitoring
- Risk and issue tracking using digital tools
- Case Study: Successful cross-department project delivery using project software

## **Module 6: Document Management Systems**

- Principles of secure document storage and retrieval
- Versioning, metadata, and indexing
- Access control and sharing permissions
- Compliance with data protection policies
- Digitization of legacy paper-based records
- Case Study: Transition from paper files to digital document repositories

## **Module 7: Workflow Automation**

- Identifying repetitive tasks for automation
- Using workflow tools to streamline approvals and notifications
- Automating forms and data collection processes
- Integrating automation with existing IT systems
- Monitoring automated workflows for efficiency gains
- Case Study: Automation of leave approval process in a ministry

## **Module 8: Cybersecurity in Digital Workplaces**

- Understanding cybersecurity threats in public sector
- Securing devices, accounts, and networks
- Implementing access management and encryption
- Promoting safe digital behaviors among employees
- Regulatory compliance and incident reporting
- Case Study: Data breach mitigation in a government office

## **Module 9: Data Analytics for Decision-Making**

- Introduction to basic analytics tools and dashboards
- Generating actionable insights from operational data
- Monitoring KPIs and departmental performance
- Visualizing data for effective communication
- Reporting trends and recommendations to management
- Case Study: Using analytics to optimize citizen service response time

## **Module 10: Digital Knowledge Management**

- Capturing and storing institutional knowledge
- Collaboration for knowledge sharing across departments
- Using knowledge repositories to reduce redundancy
- Implementing search and retrieval best practices
- Evaluating knowledge management effectiveness
- Case Study: Reducing repetitive inquiries with knowledge databases

## **Module 11: Remote and Hybrid Work Strategies**

- Tools to support virtual teamwork and productivity
- Best practices for remote task management
- Ensuring engagement and accountability in distributed teams
- Monitoring productivity without micromanagement
- Maintaining culture and team collaboration digitally
- Case Study: Successful hybrid work model implementation in a ministry

## **Module 12: Citizen Engagement Tools**

- Digital platforms for public service delivery
- Social media, portals, and mobile applications
- Automating feedback collection and response
- Data-driven insights to improve citizen satisfaction
- Maintaining transparency and communication efficiency
- Case Study: Citizen portal adoption improving service requests

## **Module 13: Emerging Technologies**

- Overview of AI, chatbots, and virtual assistants in public service
- Applications for workflow and service automation
- Evaluating ROI and usability for digital tools

- Integrating emerging tools with existing platforms
- Future-proofing digital workplaces
- Case Study: AI chatbot reducing response time in a public service department

#### **Module 14: Change Management and Adoption**

- Strategies to encourage adoption of digital tools
- Managing resistance and promoting digital culture
- Training and capacity-building plans
- Communication strategies to support transitions
- Monitoring adoption rates and feedback
- Case Study: Successful digital adoption campaign in a city council

#### **Module 15: Performance Monitoring and Continuous Improvement**

- Tracking digital tool usage and operational metrics
- Using dashboards for real-time performance tracking
- Identifying improvement areas and feedback loops
- Continuous learning and upskilling for staff
- Benchmarking against best practices in digital workplaces
- Case Study: Continuous improvement program increasing workflow efficiency

#### **Training Methodology**

- Instructor-led presentations with live tool demonstrations
- Hands-on practice sessions with collaborative software
- Scenario-based group exercises and role-play simulations
- Analysis of real-life case studies from public service institutions
- Development of practical action plans for departmental implementation
- Continuous feedback, interactive discussions, and evaluation exercises

#### **Register as a group from 3 participants for a Discount**

Send us an email: [info@fineskilltrainingcenter.org](mailto:info@fineskilltrainingcenter.org) or call +254769199797

#### ***Certification***

*Upon successful completion of this training, participants will be issued with a globally- recognized certificate.*

#### ***Tailor-Made Course***

*We also offer tailor-made courses based on your needs.*

#### **Key Notes**

- a. The participant must be conversant with English.
- b. Upon completion of training the participant will be issued with an Authorized Training Certificate
- c. Course duration is flexible and the contents can be modified to fit any number of days.
- d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.
- e. One-year post-training support Consultation and Coaching provided after the course.
- f. Payment should be done at least a week before commence of the training, to Fineskill Training Center account, as indicated in the invoice so as to enable us prepare better for you.

## Upcoming Scheduled Sessions

| Start Date  | End Date    | Location | Price   |
|-------------|-------------|----------|---------|
| 21 Sep 2026 | 02 Oct 2026 | Online   | \$2,000 |
| 21 Sep 2026 | 02 Oct 2026 | Physical | \$3,000 |
| 21 Sep 2026 | 02 Oct 2026 | Physical | \$0     |
| 21 Sep 2026 | 02 Oct 2026 | Physical | \$0     |
| 21 Sep 2026 | 02 Oct 2026 | Physical | \$0     |
| 21 Sep 2026 | 02 Oct 2026 | Physical | \$0     |
| 21 Sep 2026 | 02 Oct 2026 | Physical | \$0     |
| 21 Sep 2026 | 02 Oct 2026 | Physical | \$0     |
