

Podcasts and Radio for Results Dissemination Training Course

Professional Development Training Course Outline

Category	Monitoring and Evaluation	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

In today's dynamic media landscape, podcasts and radio remain powerful tools for disseminating evaluation findings, research insights, and program results to diverse audiences. Podcasts and Radio for Results Dissemination Training Course emphasizes leveraging audio platforms to translate complex data into engaging, actionable, and listener-friendly narratives. Participants will gain practical skills in content creation, audience targeting, storytelling techniques, and digital amplification, ensuring evaluation results achieve maximum reach and impact. By integrating emerging trends in media engagement, the course equips participants with the expertise to make evaluation and research insights resonate with communities, stakeholders, and policymakers.

This course also bridges traditional and digital media strategies, highlighting how radio and podcasts can complement other dissemination channels. Participants will explore case studies demonstrating successful campaigns, innovative content formats, and creative approaches to audience engagement. The training focuses on measurable results, ethical communication, and sustainability of messaging, enabling organizations to communicate findings effectively while driving actionable change. Attendees will leave empowered to craft compelling audio content that amplifies the visibility and utilization of research and evaluation outcomes.
