Strategic Planning for Public Service Delivery Training Course

Professional Development Training Course Outline

Category	Public Financial Management & Budgeting	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

In today’s evolving governance landscape, strategic planning for public service delivery is critical to ensuring efficiency, transparency, accountability, and sustainable growth. Public institutions worldwide are under increasing pressure to improve performance, reduce corruption risks, and deliver high-quality services to citizens. Strategic Planning for Public Service Delivery Training Course is designed to equip participants with cutting-edge tools, frameworks, and methodologies to enhance public sector governance, policy implementation, and service innovation. By leveraging data-driven decision-making, stakeholder engagement, and performance monitoring, participants will learn how to align institutional objectives with national development goals.

Through this course, professionals in the public sector will develop the skills needed to analyze complex challenges, design impactful strategies, and implement best practices in service delivery improvement, institutional transformation, digital governance, and change management. With practical case studies, participants will explore real-world applications of strategic leadership, resource optimization, and citizen-centered service models, ultimately driving organizational excellence and fostering public trust.
